This exploded view diagram illustrates the assembly of a wooden cabinet. The main components shown are the upper and lower cabinet frames, two internal shelves, and two cabinet doors. The diagram includes numerous callouts for required hardware: screws for securing panels and shelves, L-brackets for corner reinforcement, hinges for the doors, and a locking mechanism. A circular callout labeled 'x 2' indicates that two of a specific L-bracket are needed. Arrows point from the hardware to their respective installation locations on the cabinet parts.
